**ARE YOU PROTECTING
YOUR INVESTMENT?**

Introducing

**FREES SYSTEMS
TUNE-UP SERVICE**

For your

**-DUST FREE-
-FREE COOL-
and
-FREES DIRECTED AIR FLOW-
SYSTEMS**

Have you had your Annual FREES Directed Air Flow System tune-up yet?

What benefits you can expect?

- ◆ More efficiency from your equipment.
- ◆ Lower maintenance costs.
- ◆ Longer life span of your equipment.
- ◆ Fewer breakdowns and less down time.

Frees, Inc. is very proud of the work we do. We helped you to meet your goals and objectives in the manufacturing industry. *We can do more for you!* If you want fewer breakdowns, longer life expectancy, smoother running equipment and lower maintenance costs you need *US* to do annual tune-ups. *Who better to do this than the people that installed the system.* We know the equipment. We know exactly where to check to offset future problems, thus keeping your equipment at peak running condition. *Even better than that* you will have our qualified representative at your facility to answer any other questions that you might have. *Remember; Call us* today at *1-800-978-3733* and schedule your tune-up.

Don't forget to call for your filter and repair parts needs. We also have algae and mineral additives for your FREE COOL systems.

NEW PRODUCT DEVELOPMENTS UNDERWAY

The Frees T.E.A.M. (Total Environmental Air Management) System. It will save you energy costs next season.

New styrene monitor system keeps customers in compliance. A sensor indicates when styrene is not present and adjusts the air-flow in building, resulting in 30% or more energy savings.

“FIT FAN” is a low cost, effective, no heat ventilation system. Workers are more productive when they are comfortable. Please get on our list to develop this for you.
